

# About Trial Square -2F-

Trial Square is a place designed for visitors to experience different manufacturing & operating processes through designing, building, and operating various types of craft.

**Reservation Required** Available for : Elementary school students and up

Design Simulator for Jet plane, Helicopter, Ferry and Submersible

**3D.CAD WORKS STUDIO.Pro.**

Enjoy with other people

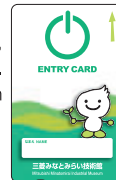

## Mission Type

Six teams begin simultaneously and experience the challenge of various missions through “designing” and “operating”. The ranking of each team will be announced at the end of the session.

Enjoy independently

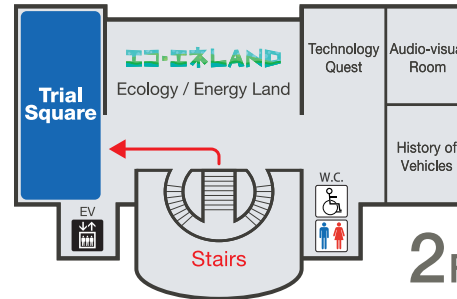

## Free Type

Choose your favorite ride out of four, and then “design” and “operate” it. You can save your design data on your entry card.

# Reservation Details

Reservations for each program are accepted every day on a first-come-first-served basis until the program is fully booked.

Each person must have an admission ticket in order to make a reservation.

Please choose one program upon reservation. You can make a reservation for other programs after finishing the program (you cannot make a reservation for more than one program at a time).

Design Simulator for Jet plane, Helicopter, Ferry and Submersible

**3D.CAD WORKS STUDIO.Pro.**
