

# Experience the Technology, Discover Scientific Frontiers

The interactive Mitsubishi Minatomirai Industrial Museum offers visitors a rare chance to touch and experience cutting-edge technology and learn at the same time.

**1 Aerospace**

Featuring MRJ Flight Challenge and actual old and new rocket engines, this exhibit demonstrates Japanese excellent cutting-edge aerospace exploration technology.

**2 Ocean**

Experience Japan's unique ocean surveying and deep-sea exploration through realistic large-sized models and videos.

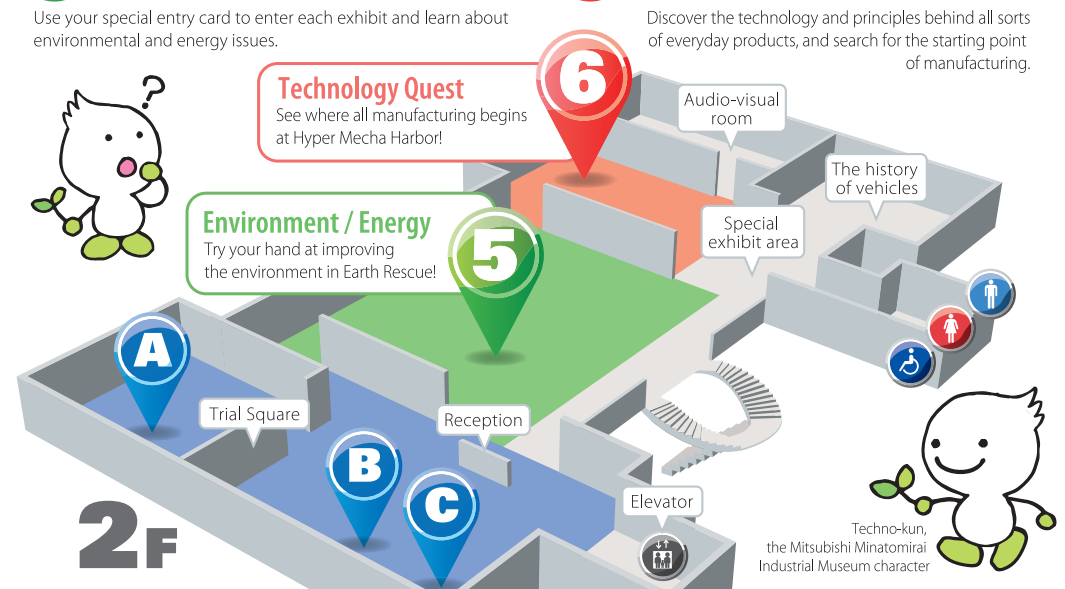

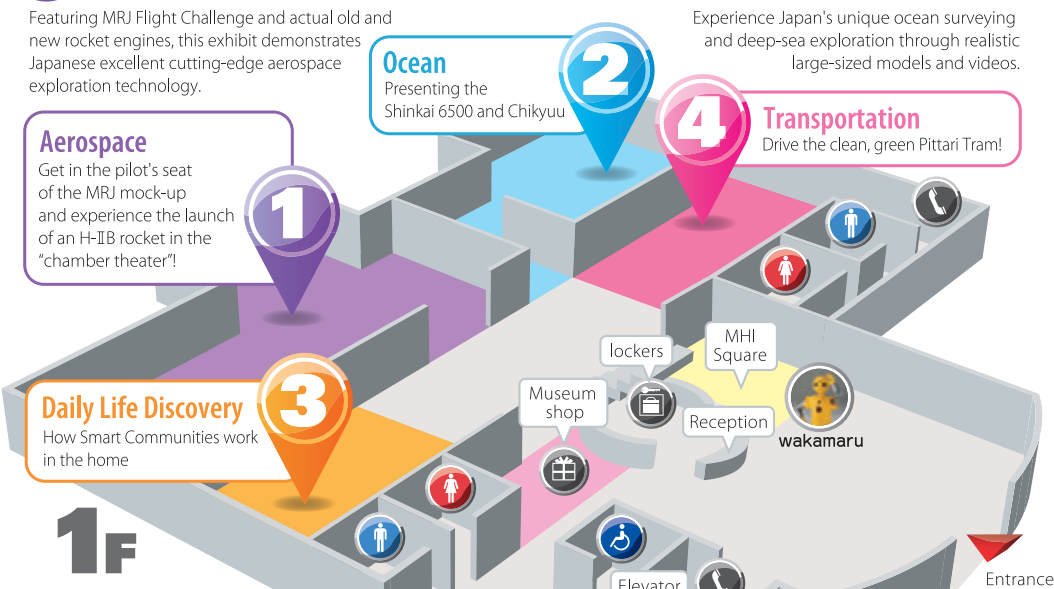

**5 Environment / Energy**

Use your special entry card to enter each exhibit and learn about environmental and energy issues.

**6 Technology Quest**

Discover the technology and principles behind all sorts of everyday products, and search for the starting point of manufacturing.

**3 Daily Life Discovery**

In the Pittari Smart Home, you can discover the eco-friendly lifestyle it offers while playing games and having fun.

**4 Transportation**

Experience the latest earth-conscious traffic and transportation technology, using simulators and a large diorama.

**Learn About Manufacturing: Design, Build and Operate!**

**Trial Square** Reservations required

- A Future Factory**  
Building a steam locomotive or concept cars
- B 3D\_CAD Works Studio\_Pro**  
Design a jet plane, helicopter, ferry, or deep-sea submersible!
- C Sky Walk Adventure**  
Operating a helicopter

**CRAFT WORKSHOP**

Fun craft workshops using common materials are held each month.
